DRINK
SERIES CT

Enjoy Clean, Clear Water Anywhere You Go!

(Of Course, the only thing you need is to find the faucet.)

How It Works:

1. Water passes through the sediment filter that traps dirt, rust and sand particles down to 5 micron.
2. The second filter removes chlorine and organic materials.
3. Then water is forced through a semipermeable membrane, leaving unwanted substances behind.
4. The final polisher removes odors and gases therefore enhancing the taste.

Standard Features:

1. Easy connect faucet adapter fits most household faucets.
2. Adjustable flow restrictor is built-in to the coupler.
3. See through water level gauge.
4. All quick connect fittings for easy filter change.

Additional features for CT-445, CT-445P, and CT-550UP:

- Tank Level Control (TLC) for automatic shut off of the system can be integrated with or without pump.
- Sufficient space reserved for installation of booster pump.
- CT-445 has TLC only; CT-445P has TLC and Pump integrated.
- CT550UP has ultraviolet light added.

Pure Water System Operating Parameters

Model	CT-550UP	CT-445P	CT-445	CT-315
Pressure: (min.-max.)	10-100 PSI	10-100 PSI	40-100 PSI	40-100 PSI
pH:	3-11	3-11	3-11	3-8
Temperature:	40-110F	40-110F	40-110F	40-110F
Product Water: (24hr)	60 Gallon	45 Gallon	45 Gallon	15 Gallon
Recovery Rate:	20-30%	20-30%	20-25%	20-23%
Rejection Rate:	97%	97%	96%	94%
System Dim. (WxDxH)	11.5x14.25x14	11.5x11x14	11.5x11x14	11.5x9.5x12
Storage Capacity:	2.5 Gallon	1.25 Gallon	1.25 Gallon	2.5 Gallon
Shipping Weight:	20 lbs.	18 lbs.	14 lbs.	14 lbs.
