

## GRUNDFOS EZ BOOST

Constant Pressure at the touch of a button  
– *the choice is EZ Boost.*

## GRUNDFOS MQ

Plug-and-play  
domestic pressure  
boosting based on  
water consumption  
– *the choice is MQ.*

## GRUNDFOS Basic Line Jets

Dependable &  
durable jet pumps  
for light agriculture  
or industry water  
transfer  
– *the choice is the  
Basic Line.*

## GRUNDFOS EZ Boost

*Need to ensure constant water pressure, even while multiple taps are on? The Grundfos EZ Boost is the answer. This complete pressure boosting system includes pump, controller, tank, mounting brackets, and pressure sensor.*

*Its high-quality construction and rugged design ensures low-maintenance and trouble free operation, and it can be installed just about anywhere. Additionally, it is competitively priced when compared to other pressure boosting alternatives.*

- Dry-run protection
- Standard home outlet voltages (single phase)
- Over voltage and under voltage protection
- Many installation options

## GRUNDFOS MQ

*Flow-based pressure boosting in a plug-and-play pump: how much easier can it get? The Grundfos MQ is compact, easy-to-install unit that requires no accessories. The pressure switch and tank are already built-in.*

*Straight-forward, reliable operation is a key characteristic. The settings are clearly indicated on the user-friendly control panel. It is made from corrosion-resistant materials, meaning it can be used for clean water.*

- Easy to install
- Smart operation
- Built to last

## GRUNDFOS Basic Line Jet

*Grundfos self-priming jet pumps are durable and dependable partners for both shallow and deep well installations. The wide range encompasses models in both cast iron and stainless steel.*

*Grundfos jet pumps are a great choice for home and garden use. All jet pump motors are totally enclosed, with a fan-cooled design for quiet operation and superior protection in harsh environments. All motors also have built-in thermal overload protection and are capacitor-run, with no switches to fail.*

- Full range of shallow/deep well jet pumps
- I.E.C. motors for better efficiency, longer life, and quieter operation
- Rugged cast iron models (JPF, JDF)
- Corrosion-resistant stainless steel (JPS)
- Built-in thermal overload for motor protection.
