

FILTERSORB SP3 ANTI-SCALE MEDIA

CWG Filtersorb SP3 Anti-Scale Media was especially developed and manufactured to protect against the formation of scale and remove already existing scale from pipes and heat exchange surfaces.

The Filtersorb SP3 catalytic media prevents the formation of scale and eliminates existing scale by accelerating the transformation of the calcium and magnesium minerals into harmless “Nano” particles. As the nano particles flow through plumbing systems, they do not attach to pipes, fixtures, valves, or heating elements; the result is 99% scale prevention and removal!

- Environmentally friendly
- Significant Reduction in Operation Cost
- Salt-free
- Chemical-Free
- Maintenance free
- No wasted water
- Reduces soap and chemical consumption by 30 to 40%
- No electricity
- Vitamins are preserved
- Eliminates existing scale

Washing Chamber of a Large Air-Conditioning System

Calcium deposits before installation of a Filtersorb SP3 System.

6 weeks later calcium deposits in the washing chamber were completely removed.

Filtersorb SP3 is successfully used in a number of applications for both residential and commercial usage. Virtually maintenance free, chemical free, and salt free, Filtersorb SP3 media water conditioners are a cost effective alternative where benefits and overall performance surpasses our competitors.
